

Take a moment to reflect on your learning journey in this course so far. Copy and paste the following questions into the Reflections/Notes section in your incident handler's journal. Then, write a two to three sentence response (40-60 words) to each question.

1. Were there any specific activities that were challenging for you? Why or why not?

Yes, there were definitely some tasks and vocabulary that were hard like Wireshark and tcpdump due to their understanding of network protocols and patterns that were difficult to comprehend as well as Splunk and Chronicle. However, through practice I became more comfortable with the tools.

2. Has your understanding of incident detection and response changed since taking this course? **Yes, my understanding has expanded significantly. I now have a clearer view and grasp of how important it is to quickly detect, contain and prevent incidents. The Google Cybersecurity course has deepened my knowledge and skill set to handle and pivot into real life cyber incidents.**

3. Was there a specific tool or concept that you enjoyed the most? Why?

I enjoyed participating in all the hands-on experiences when given the chance as they refined my skill set and helped me learn more as well as the difficult encounters I had that forced me to expand my knowledge and sharpen my skills which is crucial in any security roles.
